

## The Princess

A long time ago in a forest there was a beautiful, large kingdom.

In the Kingdom lived a beautiful princess. She was beautiful and kind.

Also in the Kingdom lived a King and a Queen. They loved their daughter.

The King was kind and wise, the queen was proud and kind to her daughter.

One morning the princess was in the garden. Suddenly a fairy appeared out of nowhere. She says I am going to get you tomorrow night.

Since the princess had been warned she could run away the next day.

She made a house in the forest. She liked living in the forest.

It was delightful being able to wake up and go berry picking in the forest.

She picked lots of berries and she lived happily ever after.
