

Jack and the Castle

In a scary and gloomy castle with slimy walls and grey towers. The castle was huge and full of bones. Jack went in. Jack was a tall smart boy ten years old and his friends Ben, Timothy and Chris were much the same.

Suddenly there was a creek and Ben shouted "Help." Ben had disappeared but there was a hole in the ground where he had been!

"We have to find Ben" cried Jack. "There's a ladder" cried Chris. The boys went down the ladder.

In the top tower there was a witch controlling the trap door and when the boys had gone down she closed it. The witch put on a disguise and went to the boys. "Would you like to stay here the night" asked the witch. "Oh yes" confessed Jack "we got lost coming home from school." the witch led them to a room with four beds "the dining room is next door" the witch told them and left. "You're very quiet Timothy" Chris confessed. "I'm know this space" cried Timothy. "I have been here before this place is a trap! But I know and escape route follow me" Jack, Ben and Chris followed Timothy. Timothy led them through a tunnel that led outside. We are free shouted Ben, Jack, Chris and Timothy.
