

## The Spooky Haunted House

Once upon a time there was a spooky haunted house that five people crept in because they thought that it was their friends house but it wasn't. It looked like an old house it had cracked windows, holes in the roof, it was a big house. The house had antiques inside.

The people went inside. It was dark and spooky. The floor creaked as they walked. They got a big fright when a ghost jumped out. It said "Hi". One of the people got something in their foot while they were running away. They sat down on an old couch, so they could get it out of their foot. They sat down on an old couch. The couch fell down into the basement.

In the basement it was really dusty. It had a lot of bugs and spiders in the basement. The witch was watching their every move. Then the witch asked "Why are you here and how did you get here" because she didn't like people coming to her house.

They were trying to get out of the basement. They finally found their way out.

They were tired now, so they found the bedroom it had five beds in the bedroom. In one of the beds there was a spider in it they didn't know that. In the middle of the night one of them asked "Can we go home tomorrow" They all agreed.

In the morning they were starving. They didn't have tea or breakfast. They tried to find their way but the ghost kept stopping them. They were sick of the ghost so they tied him up. They spent hours trying to find their way out. They finally found their way out after 7 hours. They drove home they were so tired they ran to bed.
