

The Frightening Storm

I was in a spooky room it was dangerous, gloomy, monstrous and sinister. I saw an ogre she was as big as a monster. And she was terrible and shocking. And the princess had a charming ring she was a beautiful, wonderful princess. She had blonde hair it was very long it touched the ground.

Her mum was impressive and dazzling. They lived on a farm her dad was a rich man because he worked on the farm a lot. He was very handsome. Once he was working on the farm very hard and her mum was working in the garden very hard. They had a pet snake her name is Matilda.

Matilda's mum died last year. Matilda is very cute and dazzling, gorgeous, kind and soft and lastly playful very I should say. But if the princess was naughty they got locked up in the cellar or got smacked on her hand and on the leg as well. She once lost her little brother in an earthquake. The princess nearly got lost in the earthquake because she was right next to her brother.

The house shook I was on the computer. I like playing skill games. The computer turned off suddenly straight away.

I ran to mum and dad and shouted "Oh no mum and dad" My mum went psycho as. Dad was watching a fishing programme and the tv turned off immediately.

My brother was asleep in his cot he was always annoying to me and my other little sister.

It was very cold outside cause it was raining the castle suddenly had a crack in it but I didn't want to go outside cause it was cold, wet and stormy. I whispered "I'm scared of the dark and my teddy was in the garage." I didn't mind he was old.

I got him when I was three or four so he's old he was locked in a box.

"I'm scared very disappointed too" But I am safe with my mum and dad and not with an ugly beast and all slimy monsters.

"Teas ready kids" "I'm coming" Mum I have to get the little kids too from their cotts it is really hard to lift them because they are heavy.

What are we having for tea tonight asked the princess. Spaghetti shouted mum. My brother loves spaghetti he gobbles it up in a hurry and gets more but he doesn't like it any more because he chocks on it. For pudding we had lollies everywhere on the ground on the kitchen bench in my room and on the kitchen floor.

Then we had to clean up every single lolly then we had some ice cream and dipped our lollies in the ice cream after.

It has been a stormy night. But then the castle fell down slowly, cracks were coming through they were showing up "Oh no" I screamed. I got lost I screamed the castle then came back to life because dad picked the magic stick up thank you said the princess and they lived happily ever after.
